

# Support Coordinator / Behaviour Support Checklist

## What is a Behaviour Support Plan?

A Behaviour Support Plan (BSP) is a document that has evidence-informed strategies to improve a person's quality of life and reduce behaviours of concern. A BSP works to address the needs of the person identified as having complex behaviours of concern that may currently require restrictive practices to keep the person and others safe.

A Behaviour Support Plan is developed and implemented in consultation with the person with disability, their family, carers, health care professionals, school for young people and other support people.

## Behaviour Support Checklist

A tool for those seeking to engage a provider to develop a Behaviour Support plan for NDIS participants.

Participant name:

NDIS number:

NDIS plan dates:

### 1. Is there funding in the Capacity Building Relationships budget?

- |         |  |
|---------|--|
| Yes     | <b>Go to question 2</b>  |
| No      | A plan review is required if the participant requires a Behaviour Support plan |
| Unknown | Contact the NDIA on 1800 800 110 to confirm funding allocation                 |

### 2. Is the CB Relationships provider of choice registered to develop NDIS Behaviour Support Plans?

Providers who develop Behaviour Support plans (specialist behaviour support providers) must be registered for the Behaviour Support category with the NDIS Quality and Safeguard Commission. This is the same requirement for all participants and providers, regardless how the budget is managed.

- |     |   |
|-----|---|
| Yes | Provider is registered to develop Behaviour Support plans for NDIS participants |
| No  | Provider is not able to develop Behaviour Support plans for NDIS participants   |

### 3. Is or will a provider be implementing a regulated restrictive practice/s?

Any provider who implements restrictive practices must be registered with the NDIS Quality and Safeguard Commission and comply with all reporting requirements.

Yes    Implementing provider must be NDIS registered

No     Can use unregistered providers

#### Resources

- Confirm provider registration status for each category on the NDIS Commission website.
- Implementing providers must be audited against Module 2A of the NDIS practice standards.
- Regulated restrictive practices include; Chemical restraint, environmental restraint, mechanical restraint, physical restraint and seclusion. Further information is available on the Regulated Restrictive Practice Guide.
